

Team ID	PNT2022TMID39414
Project Name	Natural Disaster Intensity Analysis and Classification Using Artificial Intelligence

Natural Disaster Intensity Analysis and Classification Using Artificial Intelligence

Project Structure

Create a Project folder which contains files as shown below

- The Dataset folder contains the training and testing images for training our model.
- We are building a Flask Application that needs HTML pages stored in the templates folder and a python script app.py for server side scripting.
- we need the model which is saved and the saved model in this content is a disaster.h5
- templates folder contains home.html,intro.html,upload.html pages.

Download the folder containing all required files & documents to build the project from the given link. Github:
